

CALL FOR PAPERS

Persons interested in submitting papers are invited to submit abstracts not exceeding two double-spaced pages for consideration for either of the two conferences. Abstracts for the 8th Annual Western Conference are due **November 23, 1994** and those for the 14th Annual Conference are due **December 19, 1994**. *Abstracts on Health Care are invited for the 14th Annual Conference* (to be presented during concurrent sessions). Please indicate the conference for which you are applying and whether you would be prepared to present the paper at either one. Abstracts may be faxed to 201-648-1348.

The Workshop Organizing Committee is responsible for the selection of the 14th Annual Conference program. The Western Committee is responsible for selection of the Western Conference program. Decisions on the papers will be conveyed promptly. Copies of the completed papers are due by April 17, 1995, for the Eastern Conference and May 15, 1995, for the Western.

All persons presenting papers are required to register for the conference at the reduced enrollment fee of \$600 (govt. \$300) for the Eastern and \$640 (govt. \$340) for the Western Conference, provided that completed application forms are received by February 17, 1995. After this date, the full conference fee will apply. In the case of full-time faculty of colleges and universities selected for the program, an honorarium plus full support for registration and lodging may be available.

FEES

The enrollment fees for the workshop are:

Workshop I: Includes the three Newark meetings *only*.
\$560 (government rate: \$280)

Workshop II: Includes the three Newark meetings and *one* conference:
14th Annual Conference *or* 8th Annual Western Conference
\$865 (government rate: \$435)

Workshop III: Includes the three Newark meetings and both conferences
\$1145 (government rate: \$575)

Conference only: 14th Annual Conference: \$630* (govt. rate: \$315*)
8th Annual Western Conference: \$670* (govt. rate: \$355*)

Health Care Workshop packages, which include the 14th Annual Conference are also available. (Please call 201-648-5761 for more information.)

The enrollment fees are per person and include prescribed learning materials, meals at the Newark meetings, all receptions, and coffee breaks. The enrollment fees do not include the cost of overnight lodging and meals at the residential meetings, which is to be paid directly by participants to the hotels. However, *all fees for the Western Conference include the dinner on July 5, 1995* in San Diego. There are a limited number of government rate rooms available on a first-come-first-served basis at the conference sites for the Eastern and Western Conferences. Early registration is advised.

The **government rate** for the conference fee is available to government employees. There is a **volume discount** of 5% on second and subsequent applications received in the same envelope or fax or made at the same time over the phone. If applications for different Workshop packages arrive together, the discount will be taken off the least expensive packages.

* Rates apply to applications received by December 31, 1994, only. After this date rates for the 14th Annual Conference are \$650 (\$325) and 8th Annual Western Conference, \$690 (\$365).

The *Center for Research in Regulated Industries* aims to further the study of regulation by research in economics, finance, and institutions. Its publications, seminars, workshops, and courses make available the latest advances to academics, managers, and regulatory commission staff. The Center's *Journal of Regulatory Economics* is an international scholarly quarterly intended to provide a forum for the highest quality research in regulatory economics.

☉ The *Center for Research in Regulated Industries* is pleased to be the recipient of *The Hermes Award, 1992*, awarded by the European Express Organization.

Advanced Workshop in Regulation and Public Utility Economics

The workshop is motivated by the increasing need to apply economic analysis to many of the economic and regulatory problems of public utilities. Considerable economic research is being undertaken by commissions and companies into problems of public utility pricing, investment, competition, and regulation. During the thirteen workshops held between 1980 and 1994, several hundred economists, commission staff members, and managers have participated in the Advanced Workshop and Conferences.

Health Economics and Regulation Program: The 14th Annual Conference will feature a day of concurrent sessions on Health Care, in conjunction with the *Health Care Policy and Regulation Workshop*, which is also held by the Center for Research in Regulated Industries. The Health Care Policy and Regulation Workshop provides a forum for individuals from a wide range of disciplines and interests to meet and discuss health care policy and regulation; and how ongoing health care reforms affect their organizations, institutions, and society at large. Workshop participants include individuals from national, state, and local government and regulatory agencies, the academic community (health and regulatory economists, health care policy analysts, etc.), health care industries (pharmaceutical, health insurance, hospitals, and physicians), and non-profit health care organizations.

OBJECTIVE: The general objective of the workshop is to promote economic research, public policy analysis and improve understanding of current issues facing regulators, regulated industries, and consumers. To this end, the workshop attempts to develop the individual's research capacity in the field of public utility economics and regulation. Thus, the workshop has direct benefits for the individual's employer and offers career development opportunities for the participants.

APPROACH: For the first six years, the Workshop was organized annually as three one-day meetings combined with a two-day conference. Beginning in 1987-1988, a second two-day conference was offered on the West Coast. This year the Workshop will again offer two conferences in addition to the three one-day meetings. The meeting format is designed to allow for both presentation of recent research and the open discussion of new ideas.

Some examples of research topics that are examined in the workshop include pricing policy of public utilities, equity and efficiency in regulation, regulation and incentives, developments in demand analysis and forecasting in utilities, conflicts in state and federal regulation, the interaction of antitrust and regulation, economics of multiproduct utilities, cross subsidy issues, cost allocation, capital recovery, phase-ins and nuclear plants, effects of energy price changes on electric and gas utilities, mandatory and voluntary wheeling of power, and the implications of diversification for utilities. Where relevant, instruction is provided in areas where economists need at least background knowledge, but often lack formal training; for example, economic theory of contracts, depreciation and capital recovery, bidding, fairness, and the role of financial models in regulation.

Participants should be active in public utility economics or regulation. Since the approach of the workshop is to create open discussion of ideas, members will be encouraged to produce a paper which is intended as a contribution to knowledge or provide comments and discussion of the papers presented.

FACULTY

Michael A. Crew: Professor of Economics, School of Management, Rutgers University and Director of the Center for Research in Regulated Industries; Ph.D. (University of Bradford, England). Dr. Crew has published books and articles in the fields of industrial organization, applied microeconomics and public utilities in the major economic journals. He is Editor of the *Journal of Regulatory Economics*. His current research is in the areas of pricing under regulation and alternative systems of regulation.

Paul R. Kleindorfer: Universal Furniture Professor of Economics and Decision Sciences, University of Pennsylvania; Ph.D. (Carnegie-Mellon University). Dr. Kleindorfer has published articles in the fields of systems, management science, and public utilities. His current research is in the areas of public utility pricing and regulation with stochastic demand, alternative systems of regulation, the theory of incentives and labor-managed firms. His book, *The Economics of Public Utility Regulation*, (with M.A. Crew), M.I.T. Press, 1986, is background reading for the workshop. His new book is *Decision Sciences: An Integrative Perspective* (with H.C. Kunreuther & P.J.H. Schoemaker), Cambridge University Press, 1993.

William E. Kovacic: Professor of Law, George Mason University, School of Law; J.D. (Columbia University School of Law). Mr. Kovacic has published articles in law and economics and is a recognized authority on government contracts and antitrust.

Robert H. Patrick: Associate Professor of Economics, School of Management Rutgers University and Associate Director of the Center for Research in Regulated Industries; Ph.D. (University of New Mexico).

Thomas A. Abbott, III, Assistant Professor of Economics, School of Management and Associate Director of the Center for Research in Regulated Industries; Ph.D. (Harvard University). Dr. Abbott directs the Center's Health Care Policy and Regulation Workshop.
