ARUNESH SINHA

Assistant Professor	Cell Phone:	Email to ask
Management Sciences and Information Systems	Email:	arunesh.sinha@rutgers.edu
Rutgers Business School	Website:	Link to Webpage
1 Washington Pl, Newark, NJ 07102, United States		

RESEARCH INTERESTS

My interest lies in the area of Artificial Intelligence. I have utilized techniques from game theory and machine learning to address varied problems involving adversarial reasoning such as privacy audits, airport screening, and learning adversary behavior models in games.

EDUCATION

Carnegie Mellon University, Pittsburgh, PA   Aug 2008 – Aug 2014

- Ph.D. in Electrical and Computer Engineering
- Thesis: Audit Games, Advisor: Anupam Datta

Indian Institute of Technology, Kharagpur, India   June 2000 – June 2004

- B.Tech in Electrical Engineering, with minor in Electronics Engineering

WORK EXPERIENCE

Rutgers University, NJ, USA   Sep 2022 – Present

- Assistant Professor

Singapore Management University, Singapore   Aug 2019 – June 2022

- Assistant Professor

University of Michigan, MI   Aug 2016 – July 2019

- Assistant Research Scientist

University of Southern California, Los Angeles, CA   Aug 2014 – July 2016

- Postdoctoral Researcher with Prof. Milind Tambe

Trilogy Software, Bangalore, India   July 2004 – July 2008

- Software Engineer: Worked on various software projects.

INTERNSHIP EXPERIENCE

Intel Labs, Hillsboro, OR   June 2013 – Aug 2013

- Research Intern: Machine learning based detection of activity of mobile-phone users.

Microsoft Research, Redmond, WA   June 2012 – Aug 2012

- Research Intern: Designed and formally verified a TPM based logging scheme that guarantees log integrity.

HONORS AND AWARDS

- Honorable mention in the Distinguished paper category in the Annual Computer Security Applications Conference (ACSAC) 2022.

- Best Demo Award for the most innovative and interesting contribution to the Demonstration Track in the 20th International Conference on Autonomous Agents and Multiagent Systems (AAMAS 2021)

- Lee Kong Chian Fellowship conferred by Singapore Management University, 2020

- Distinguished Program Committee member award in International Joint Conference on AI (IJCAI) 2019.

- Best innovative application paper runner-up in the 15th International Conference on Autonomous Agents and Multiagent Systems (AAMAS 2016).

- 2012 Bertucci Fellowship, College of Engineering, Carnegie Mellon University: Awarded for accomplished Ph.D. students pursuing novel research. Awarded on recommendation of two faculty.

- Winner of BobbleHead Award in Trilogy India: Awarded in recognition of outstanding contribution to software delivery.

- Best Undergraduate Project at department level at IIT, Kharagpur. The project used signal processing to predict the movement of the boundary between two immiscible liquids flowing in a vertical tube.

- Attended the INMO (Indian National Math's Olympiad) Camp in Mumbai, India. Thirty students are chosen (from all over India) for this camp after a series of regional and national Mathematics exams.

SUCCESSFUL GRANT PROPOSALS INVOLVED AS PI AND INVESTIGATOR

- AI Singapore grant award numbered AISG2-RP-2020-017 on Trust to Train and Train to Trust: Agent Training Programs for Safety Critical Environment, 2021, S$6 million – **Funded and co-PI**

- Google Research Award for Faculty for work on AI for Social Impact (Gift), 2019 , 2020, and 2021, Total $50,000 – **Funded and PI**

- Singapore Ministry of Education Academic Research Fund (AcRF) Tier 1 grant on Threat Screening Games, 2019, S$100,000 – **Funded and PI**

- DARPA Spectrum Collaboration Challenge Scoring Methodology, 2017, $125, 000, DARPA – **Funded and co-PI**

- Multi-Scale Network Games of Collusion and Competition, Department of Defense Multidisciplinary University Research Initiatives (MURI), awarded 2018, $6,250,000 – **Funded and Investigator**

GRANT PROPOSALS HELPED ON AS POSTDOC AND PHD STUDENT

- Towards a Science of Cyber-Security Games, 7/15/15-7/15/18, $750, 000 Army Research Office – **Funded**

- Hardening a Distributed CPS through Rational and Dynamic Decision-Making Among Multiple Stakeholders, Submitted to National Science Foundation Frontier

- Adversarial Cyber Security Game among Attackers, Defenders, and Users, Submitted to National Science Foundation SaTC program

- Towards OPtimized SECurity at Ports of Entry (TOP-SEC), Submitted to National Science Foundation SaTC program

- Hardening the Power Grid: Rational and Dynamic Decision-Making Among Multiple Stakeholders, DHS Broad Agency Announcement Call HSHQDC-14-R-B0016

- Adaptive Defense Mechanisms for Adversarial Environments, Department of Defense Multi-disciplinary Research Program of the University Research Initiative

PARTICIPATION IN THESIS COMMITTEES

- *Joe Waldy*: Ph.D. thesis committee member (2022), School of Computing and Information Systems, Singapore Management University.

- *Rajiv Ranjan Kumar*: Ph.D. thesis committee member (2022), School of Computing and Information Systems, Singapore Management University.

- *Qi Zhang*: Ph.D. thesis committee member (2020), Computer Science and Engineering, University of Michigan.

- *Erik Brinkmann*: Ph.D. thesis committee member (2017), Computer Science and Engineering, University of Michigan.

TEACHING EXPERIENCE

Courses taught at Rutgers Business School:

- Information Security (2022 Fall)

- Cyber Security (2023 Spring)

- Deep Learning and Neural Networks (2023 Spring)

Courses taught at Singapore Management University:

- Computational Thinking (2019 Term 1, 2020 Term 1)

- Heuristic Search and Optimization (2020 Term 2)

- Design and Analysis of Algorithms (2021 Term 2, 2022 Term 2)

Other lectures:

- Guest lecture on Game Theory in "EECS 492: Introduction to Artificial Intelligence" at University of Michigan

- Taught two lecture on PAC learning for course "Security Games" (2016) by Milind Tambe at University of Southern California

- Teaching assistant for course "Foundations of Privacy" (2013) by Anupam Datta at Carnegie Mellon University

  - Designed and graded assignments for this new course
  - Taught all recitation classes, teaching additional material not covered in class
  - Taught classes when Anupam Datta was out of town

- Teaching assistant for course "Foundations of Security and Privacy" (2011) by Anupam Datta at Carnegie Mellon University

  - Taught all recitation classes and graded assignments
  - Taught classes when Anupam Datta was out of town
